

May 8, 2019

Exciting news! Construction crews broke ground at the site of our new building this week. The new building will be over double our current size and is located right off I-65 in Whitestown – just 5 minutes north of our current location. In addition, there will be a new exit ramp added at our location in 2021.

Our projected completion date is March 3, 2020. Here are some photos from this week. We'll keep everyone updated on progress as we go. This building will be our new home and we can't wait for the final results!
